## LiteTable-ST Stackable table.

Frame made from welded round tubular steel legs with all-round rectangular tubular steel top frame, all powder-coated. Because the inner and outer legs are arranged in pairs, the table is stackable (ST). What is more, they can be rotated to form continuous rows. The edge of the top frame is equipped with stacking and glide protection. Tables with glide elements for hard or soft floorings or with 2C universal glide elements and, optionally, with two castors at the outer legs.

Table top Consisting of a LIGNOpal top and glued (KU) plastic border. Available with edged or rounded corners as required.

Optionally it is also possible to use table connectors depending on the table arrangement (model 21003).

The following material groups are available to choose from: Frame made of steel: M1; Top made of LIGNOpal: L4. Further products on this page: Compass-Soft.
