

**PRODUCT INFORMATION** B1Chair\_TY\_US - 25.03.2015 - www.vs-furniture.com

## B1Chair Cantilever skid chair with flexible seat-backrest connection.

Frame of bent and welded, powder-coated or chrome-plated round steel tube with extra-stable cross-strut between the skids.

Sizes in accordance with DIN EN 1729-1:2006; sizes 6 and 7.

**Ergonomics:** The flexible design promotes high seat variability and thus active and ergonomic sitting with autonomously swinging forward and backward seat-backrest movements.

Seat and backrest of double-walled, structured polypropylene with seat-cushion effect. Concealed seat mounting with spring element for supporting dynamic sitting. Optionally with firmly upholstered seat all over or firmly upholstered backrest.

**Equipment and options.** Glide elements for hard or soft floors or 2K universal glide elements.

The following material groups are available to choose from: Frame made of steel: M1,2,7; Seat and backrest: C1,6,7; Fabric cover: S16,45,46,47,48,49,51,52,53.

	Dimensions without load, seat height and depth change during use.
